Standard Notes: - Represents zero. (D) Withheld to avoid disclosing figures for individual companies. (NA) Not available. (X) Not applicable.

n.e.c. Not elsewhere classified.
Excludes the cost of products purchased for resale without further processing. (This cost is included with supplies in many of the 1963 and 1958 tables.)
Excludes the cost of blasting accessories and breaking agents.
Includes such items as rails, wheels, track accessories, plates, pipe, casing, tubing, piling, drill steel bars, other bars, roof bolts, sheets, strip, wire, wire products, and structural shapes.
and represents such items as drill bits, cement, Parts for renewals and repairs, lubricants, round and hewn woods products and stumpage, lumber,

For the 1958 of the quantity and cost of supplies were not obtained for establishments in the Mineral services (except Oil and gas field service) industries, the Nonmetallic minerals mining industries, or for small establishments in other industries. The total cost of supplies for such establishments is shown as "Undistributed."

Reported For the Metal mining and Coal mining industries separate figures on the use of explosives
Separate obtained of steel mill shapes and forms

Includes the cost of products purchased for resale without further processing.
Includes the cost of minerals received for preparation and the cost of products purchased for resale without further processing.
For the Bituminous coal and lignite industries. \$16,465 thousand in 1963 and \$20,873 thousand in 1958
Figures for lignite are included with those for bituminous coal.
The cost of supplies, other than woods products for lignite is included with figures for bituminous coal
For the crude petroleum subindustry, \$607 thousand for the natural gas subindustry, and \$40 thousand for the oil and gas field services industries.
